

Reddery RZ F1

introduction

Fine premium tomato

The smaller fruit size (10 to 13 grams) is a distinguishing feature of this round cherry vine tomato. The great taste and crunchy bite, combined with the deep red colour and flat trusses, make it a popular tomato for the premium segment. The fruits are strong and do not split easily. The slightly generative, balanced and uniform crop is suitable for lit cultivation and has a standard resistance to leaf mold. Moreover, the crop is very dynamic as it is suitable for both loose and truss harvesting.
